15. Failure to follow written rules will disqualify an individual's entry.

DIVISION I - ARTWORK

Entries must be original works; students may copy a photograph if it is a photograph taken by the student/artist or student/artist directed.

Entries will be judged on Creativity, originality, quality of artistic composition and overall design, and overall impression of the art. What is the effect of the artwork in general and as a whole? Overall, does the artwork stand on its own as a complete and outstanding work of art?

Frames will be allowed (The Kaufman County show board will not be held responsible for damages). Please have a border on all artwork to prevent damage to artwork.

A. Painting describes both the act and the result of the action. The expression of ideas and emotions, with the creation of certain aesthetic qualities, in a two-dimensional visual language. The elements of this language—its shapes, lines, colors, tones, and textures—are used in various ways to produce sensations of volume, space, movement, and light on a flat surface.

DIVISION III – PHOTOGRAPHY – ONLINE ENTRY ONLY

1. 2021 Photography entry method contestants will upload photos online at the time of entry.

Photo Optimization: All photos should accurately reflect the subject matter and the scene as it appeared. Photos that have been digitally altered beyond standard optimization (red eye reduction, removal of dust, cropping, minor adjustments to exposure, color, and contrast, etc.) will have points deducted.

2. Judging criteria will include, but may not be limited to, the following:

- Impact- the sense one gets upon viewing an image for the first time; creativity- the original, fresh, and external expression of the imagination of the maker by using the medium to convey an idea, message or thought.
- Technical Excellence- is the print quality of the image itself as it is presented for viewing. Retouching, manipulation, sharpness, exposure, printing, mounting, and correct color are some items that speak to the qualities of the physical print.
- Composition- is important to the design of an image, bringing all the visual elements together in concert to express the purpose of the image. Proper composition holds the viewer in the image and prompts the viewer to look where the creator intends. Effective composition can be pleasing or disturbing, depending on the intent of the image maker.
- Lighting- the use and control of light –refers to how dimension, shape and roundness are defined in an image. Whether the light applied to an image is manmade or natural, proper use of it should enhance an image.
- Style- is defined in several ways as it applies to a creative image. It might be defined by a specific genre or simply be recognizable as the characteristics of how a specific artist applies light to a subject. It can impact an image in a positive manner when the subject matter and the style are appropriate for each other, or it can have a negative effect when they are at odds.
- Print Presentation- affects an image by giving it a finished look. The mats and borders used should support and enhance the image, not distract from it.
- Center of Interest- is the point or points on the image where the maker wants the viewer to stop as they view the image. There can be primary and secondary centers of interest. Occasionally there will be no specific center of interest when the entire scene collectively serves as the center of interest.
- Subject Matter- should always be appropriate to the story being told in an image.
- Color Balance- supplies harmony to an image. An image in which the tones work together, effectively supporting the image, can enhance its emotional appeal. Color balance is not always harmonious and can be used to evoke diverse feelings for effect.
- Technique- is the approach used to create the image. Printing, lighting, posing, capture, presentation media, and more are part of the technique applied to an image.
- Story Telling- refers to the image's ability to evoke imagination. One beautiful thing about art is that each viewer might collect his own message or read her own story in an image.

3. Photo must be taken by contestants between the dates of March 1, 2020 and the time of entry. Slight computer enhanced photos are allowed, such as crop, trimming, adjusting lighting and red eye reduction; substantially altered photos, such as changing colors, applying design styles or using computer graphics will be disqualified.

- Photo format jpeg, jpg, or png.
- Photography ratios, and photo resolution. -Size Ration must be 5:4 (8X10) ratio (either landscape or portrait).
- File Size: Photo must be a minimum of 1MB and a maximum of 10MB.
- Tips: Upload the highest resolution possible. Review your photo at 100% size before uploading.
